

NEW C-SERIES WIDESCREEN MULTIFUNCTION DISPLAYS

The all new C-Series Widescreen redefines multifunction navigation with larger, brilliant displays, increased performance, expanded networking and video integration. These high resolution multifunction displays give captains a commanding view of multiple sources of information without compromising readability. You can enjoy full screen navigation or choose multiple window combinations of 3D chart, radar, fishfinder, weather and video. C-Series Widescreen gives you the flexibility to create the ideal screen configuration for every navigation scenario. Available in 9", 12" and 14" Sunlight Viewable displays with Optical Bonding technology for improved color and contrast in all lighting conditions. Build a system with a single widescreen display or create a dual display C-Series Widescreen network. Connect to SeaTalk compatible instruments, autopilots, NMEA2000 compatible devices and the all new Raymarine HD Digital Radars, sounders and peripheral devices. A built in high sensitivity GPS sensor with WAAS capability eliminates the need for an external GPS antenna in most installations. C-Series Widescreen displays are pre-loaded with ready-to-navigate Canadian Navionics charts. C-Series Widescreen is the next generation of the world's most popular Multifunction Displays.

KVH

The all new KVH M1-C Satellite TV Antenna. Big Fun in Canada's Smallest Package - Easy to Install, Easy to Use, and Easy to Enjoy!

TracVision M1 antenna allows you to enjoy hundreds of channels including HD satellite TV programming from ExpressVu while at the dock, sailing, or cruising around Canadian and U.S. and coastal waters. Weighing just 7.5 lbs., the in-motion TracVision M1 is the world's smallest and lightest satellite TV system for boats. It offers the rock-solid open water tracking and in-motion performance you might expect from a larger antenna, while fitting the sleek exterior design of vessels both power and sail as small as 20 feet. Best of all, the TracVision M1's small size, easy setup, Whisper Drive™ motor technology, and versatile mounting options mean you can install it wherever is most convenient for you. KVH has also included specific ExpressVu "auto switching" software which will allow invisible adjustments between HD and non HD channels, an industry exclusive! When you choose KVH's TracVision M1, you'll get the best shows on H20!
